Washington, Feb. 1. Yesterday a flag of truce appeared on the Fue in front of Petersburg occupied by the ninth (9th) corps, and a message was sent in for permission to allow Vice President Alexander H. Si ce the ju'll ation of our start ar inl f vesterday in regard to Gen. Butler's eigh administration in New Orleans, we have received several letters, making incumis about

Well, it is violently charged that he mireated a Mrs. Phillips in New Orleans. Mrs. 1 '- -ou, a boy eight or nine years old, was in the habit of spitting upon every Federal other that passed his mother's house, and then seeking refuge. Mrs. P. was summoned before a military tribunal and strongly admonished to each her boy better manners and better mosa's. But the little rascal become worse than ever. A l'ederal officer was compelled to whip

Two or three days after the whipping, a very learly-beloved Federal officer died. Arrangements were made for his funeral. The proces sion was to pass the house of Mrs. Phillips. In enticipation of the passing of the weeping mourners, she gathered around her half a dozen women like herself, all bedisened with flowers and ribbons, and, as the weepers were going by, leaned back and langlied with the whole power of her diaphragm, clapping her hands with the most riotous exultation ller punishment was not proportioned to her offence. General Butler ordered her to Ship Island, a charming Island a few miles from New Orleans, and assigned her to a pleasant cortage there. He kept her there a very short time and then let her return home. Was that woman nordinately punished?

Much his been said allon what has been : led General Butler's "Woman Order " We did not approve it. We thought that at least t was unfortunate in its lang rage. The london papers denonneed it, and yet they had un right to do so, for it was almost an exact copy of an ordinance that has been in operation in Loudon for more than two centuries. No woman was arrested or molested under General B.'s order. His purpose was fully accomlished. His order, as he said to us, emula it elf. There was nothing left for him to di.

The House of Representatives of the Illi ncis Legislature has voted the repeal of what are known as the "Black Laws," which robibited the immigration of free persons of color into Illinois. The Senate, by this date has en nourred with the Lower House. The repeal of these laws opens at once the borders of our sister State to negro immigration. Now however the whole matter has been intrusted to Lieut.-Gen. Grant and we have great confidence that, under his direction, a system of exchange will be ste dily adopted. Gen. Grant is a ; ! We should like to know who Citizen is. Have no mother's hands been busy for you? Have no mether's hands taught you of death and eternity? Have you no wife, sister, or daughter to reproach and to shame you? O man, where is thy shame, when you come out to the light of the world and tell poor, defenceless, orphen lemales that if they are not satisfied with their salaries that they can give up their positions. Tell women that are working for \$525 a year that they are to work on in silence, shivering with cold and suffering from hanger! You may be a citizen, an honorable citizen, but thank (not, you are not a fair specimen of the citizens of Lonisyllie—not an equal, at least, with those noble members of the Conneil who voted to raise the lowest salary to seven hundred doltars.
